Ingkarni Wardli Building, City Campus East, Adelaide University, SA 5005, Australia
dino.sejdinovic@adelaide.edu.au ⋄ +61(0)883133797

ACADEMIC POSITIONS

School of Mathematical Sciences, Adelaide University
Professor *2022–*

Nanyang Technological University, Singapore
Visiting Professor *2025–*

The Institute of Statistical Mathematics, Tokyo
Visiting Professor *2024–*

Department of Statistics, University of Oxford
Associate Professor *2016–2022*
Lecturer *2014–2015*

Mansfield College, Oxford
Fellow and Tutor in Statistics *2016–2022*

The Alan Turing Institute, London
Turing Faculty Fellow *2016–2021*

University College, Oxford
Senior College Lecturer *2014–2015*

Gatsby Computational Neuroscience Unit, University College London
Postdoctoral Fellow *2011–2014*

Institute for Statistical Science, University of Bristol
Brunel Postdoctoral Fellow *2009–2011*

OTHER EMPLOYMENT

Goldman, Sachs & Co, London
Vice President, Operations Strategies *2013–2014*

EDUCATION

University of Bristol
PhD in Electrical and Electronic Engineering *2006–2009*

University of Sarajevo
Diplom in Mathematics and Theoretical Computer Science *2003–2006*

PROFESSIONAL SERVICE

Secretary, *Mathematics for Machine Learning* SIG, Australian Mathematical Society *2026–*
Senior Associate Editor, *ACM Transactions on Probabilistic Machine Learning* *2023–*
Editorial Board Member, *Journal of Machine Learning Research* *2020–*
Program Chair, Australian Data Science Network Conference (ADSN) *2023*
Area Chair, International Conference on Machine Learning (ICML) *2017, 2018, 2020*
Area Chair, Artificial Intelligence and Statistics (AISTATS) *2016, 2017, 2019*
Area Chair, Neural Information Processing Systems (NeurIPS) *2015*

Selected peer-review activities:

- *Journal of Machine Learning Research; Foundations and Trends in Machine Learning; Journal of the Royal Statistical Society - Series B; Annals of Statistics; Biometrika; Journal of the American Statistical Association; Information and Inference; Statistical Science; Statistics and Computing; Geoscientific Model Development; IEEE Transactions on Information Theory; IEEE Transactions on Pattern Analysis and Machine Intelligence; Neural Computation; Journal of Causal Inference; Neural Information Processing Systems (NeurIPS); International Conference on Machine Learning (ICML); NSF: Methodology, Measurement, and Statistics Program.*

INSTITUTIONAL SERVICE

Adelaide University

Academic Lead, School of Mathematical Sciences	*2026–*
Theme Co-Lead, Responsible AI Research Centre (RAIR)	*2025–*
Academic Leadership Team, Australian Institute for Machine Learning	*2023–*
Steering Committee, Adelaide Data Science Centre	*2023–*
IT & Data Science Program Development Working Group	*2023–2024*
Chair, Statistics and Data Science Curriculum Working Group	*2023*

Department of Statistics, University of Oxford

Equality, Diversity & Inclusion Committee	*2021-2022*
IT Committee	*2021-2022*
Management Team, StatML Centre for Doctoral Training	*2019-2022*
Teaching Committee	*2017-2021*
Chair, IT Provision Working Group	*2017–2018*
MMath Mathematics & Statistics Part C Official Examiner	*2015–2018, 2021–2022*
MSc in Statistical Science Admissions Committee	*2015–2022*
Graduate Research Committee	*2015–2017*

Mansfield College, Oxford

Member of the Governing Body	*2016–2022*

GRANTS AND AWARDS

- €4.18M; ERC: iMIRACLI - Horizon 2020 European Training Network on Innovative Machine Learning to Constrain Aerosol-Cloud Climate Impacts (co-CI) *2020–2023*
- £6.16M; EPSRC: StatML - Centre for Doctoral Training in Modern Statistics and Statistical Machine Learning at Imperial College London and University of Oxford (co-I) *2019–2027*
- £43.7k; Hennes & Mauritz AB: Causal Inference and Machine Learning for Clothing Retail Industry Applications (CI) *2018–2022*
- £300k; Tencent: Collaboration on Large Scale Machine Learning (co-I) *2017–2020*

- Best Paper Award Honorable Mention, AISTATS 2022 ([74])
- Best Paper Award Honorable Mention, ICML 2019 ([86])
- Best Paper Award, ICML 2019 Workshop "Climate Change: How Can AI Help?" ([152])
- Papers with plenary/oral presentations: NeurIPS 2013 ([108], top 1.4% of submissions), NeurIPS 2014 ([106], top 1.2%), AISTATS 2016 ([101], top 6.5%), UAI 2016 ([100], top 9.5%), AISTATS 2017 ([95], top 5.3%), AISTATS 2022 ([74], top 2.6%), ICML 2023 ([68], top 2.4%), NeurIPS 2023 ([66], top 0.62%)
- 2011 IEEE Trans. Multimedia Prize Paper Award Shortlist (Top 5) for [45]
- Toshiba Research PhD Scholarship (2006–2009)
- Golden Badge Award of the University of Sarajevo, 2007
- The Most Successful Student / Valedictorian of the '07 Class at the University of Sarajevo (1/4,517)

SUPERVISION AND EXAMINATION OF RESEARCH

Current Research Group

Mengjing Wu (Postdoc, Adelaide), 2026–
Boming Xia (Postdoc, Adelaide), 2025–
Yihe Chen (PhD student, Adelaide), 2026–
Aidan Moller (PhD student, Adelaide), 2025–
Vinh Thanh Nguyen (PhD student, Adelaide), 2024–
Kyan Percevault (MRes student, Adelaide), 2026–
Alexander Smith (MRes student, Adelaide), 2026–

Past Supervision of Postdocs

1. Erdun Gao, Centre for Augmented Reasoning & Responsible AI Research Centre, Australian Institute for Machine Learning, Adelaide University, 2024–2026.
2. Gaurangi Anand, Centre for Augmented Reasoning, Australian Institute for Machine Learning, Adelaide University, 2024–2026.

Past Supervision of Doctoral Dissertations

1. Jake Fawkes, *Data quality in causal machine learning with applications to algorithmic fairness*, DPhil, Department of Statistics, University of Oxford, 2025, DOI: 10.5287/ora-d5yrjyryk.
2. Veit Wild, *Generalised Variational Inference in Infinite Dimensions*, DPhil, Department of Statistics, University of Oxford, 2024, DOI: 10.5287/ora-8nap4okkw.
3. Shahine Bouabid, *Transforming Kernel-Based Learners to Incorporate Domain Knowledge from Climate Science*, DPhil, Department of Statistics, University of Oxford, 2024, DOI: 10.5287/ora-2rk2odmd0.
4. Valerie Bradley, *Quantifying and Mitigating Selection Bias in Probability and Nonprobability Samples*, DPhil, Department of Statistics, University of Oxford, 2024, DOI: 10.5287/ora-nyorpx7dq.
5. Siu Lun Chau, *Towards Trustworthy Machine Learning with Kernels*, DPhil, Department of Statistics, University of Oxford, 2023, DOI: 10.5287/ora-pvejqz4z5.
6. Robert Hu, *Large Scale Methods for Kernels, Causal Inference and Survival Modelling*, DPhil, Department of Statistics, University of Oxford, 2022, DOI: 10.5287/bodleian:gAzgOV7D4.
7. Jean-Francois Ton, *Causal Reasoning and Meta Learning using Kernel Mean Embeddings*, DPhil, Department of Statistics, University of Oxford, 2022, DOI: 10.5287/ora-jb88pmzzp.
8. Anthony Caterini, *Expanding the Capabilities of Normalizing Flows in Deep Generative Models and Variational Inference*, DPhil, Department of Statistics, University of Oxford, 2021, DOI: 10.5287/ora-rjrgxyjkx.
9. David Rindt, *Nonparametric Independence Testing and Regression for Time-to-Event Data*, DPhil, Department of Statistics, University of Oxford, 2021, DOI: 10.5287/ora-gjepojpmd.
10. Zhu Li, *On the Properties of Random Feature Methods*, DPhil, Department of Statistics, University of Oxford, 2021, DOI: 10.5287/ora-g7rga2w20.
11. Qinyi Zhang, *Kernel Based Hypothesis Tests: Large-Scale Approximations and Bayesian Perspectives*, DPhil, Department of Statistics, University of Oxford, 2020, DOI: 10.5287/ora-nzdaoyx8y.
12. Ho Chung Law, *Testing and Learning on Distributional and Set Inputs*, DPhil, Department of Statistics, University of Oxford, 2020, DOI: 10.5287/ora-x5vm7r1zj.
13. Jovana Mitrović, *Representation Learning with Kernel Methods*, DPhil, Department of Statistics, University of Oxford, 2019.

Past Supervision of MPhil, Master and Honours Research Dissertations

1. Peter Moskvichev, *Kernel Differences Between Conditional Distributions with Applications in Uncertainty Calibration*, MPhil, School of Mathematical Sciences, Adelaide University, 2026
2. Vivienne Niejalke, *Geolocation with Latent Variable Models*, MPhil, School of Computer and Mathematical Sciences, University of Adelaide, 2025
3. Al Malik Dzulkipli, *Time-Varying Squared Neural Families*, Honours Thesis, Bachelor of Computer Science, University of Adelaide, 2025
4. Zhuoya Zhao, *An Investigation of Collider Regression*, Honours Thesis, Bachelor of Mathematical Sciences, University of Adelaide, 2024
5. Litong Qi, *Enhancing trust in obstacle detection for visually impaired people using Shapley values*, Master of Data Science, University of Adelaide, 2024
6. Nikhil Kapoor, *Illuminating the Stars: Predicting Stellar Luminosity with Explainable Machine Learning*, Master of Data Science, University of Adelaide, 2024
7. Sarun Srikhom, *Shapley Values for Explaining Machine Learning Models*, Master of Data Science, University of Adelaide, 2024
8. Pham Thuy Tien Le, *Explaining Predictions of Used Vehicle Prices by SHAP methods*, Master of Data Science, University of Adelaide, 2024
9. Ky Phong Mai, *A Comprehensive Study of Shapley Value Explanations in Image Classification*, Master of Data Science, University of Adelaide, 2024
10. Yu Zhang, *SHAP: Interpretable Deep Learning for Enhanced Robustness and Security*, Master of Data Science, University of Adelaide, 2024
11. Haisen Liang, *Explaining Political Ideology with Shapley Values*, Master of Data Science, University of Adelaide, 2024
12. Fu Chuen Li, *Computational Efficiency of Shapley Value Estimation*, Master of Data Science, University of Adelaide, 2023
13. Nguyen Phuc Thai, *A Review of Methods for Uncertainty Quantification when Estimating Shapley Values*, Master of Data Science, University of Adelaide, 2023
14. Anubhav Dattagupta, *Shapley Values for Explaining Machine Learning Models: Understanding the Impact of Rule Changes in Cricket*, Master of Data Science, University of Adelaide, 2023
15. Ka Man Becky Pang, *SHAP Explanation for Horse Racing Predictive Models*, Master of Data Science, University of Adelaide, 2023
16. Hanyue Zhang, *Shapley Values for Explaining Formula One Racing Predictive Models*, Master of Data Science, University of Adelaide, 2023
17. Tashreque Mohammed Haq, *Assessing Player Contributions in Soccer via the use of Shapley Values*, Master of Data Science, University of Adelaide, 2023
18. Diego Martinez Taboada, *Uncertainty Quantification for the Multi-Armed Bandit and the Off-Policy Evaluation Problems*, MSc in Statistical Science, University of Oxford, 2022
19. Ewan Yeaxlee, *Estimation of Stratum Means via Weight Estimation Methods and Conditional Mean Embeddings*, MSc in Statistical Science, University of Oxford, 2022
20. Qi Chen, *A HSIC-based Test for Causal Association on Verma Graph*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2022
21. Oscar Yung, *MMD Two-Sample Testing in Regression Discontinuity Design*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2022
22. Aidan Sabety-Mass, *Quantile Modelling with Kernel Methods and Meta Learning*, MSc in Statistical Science, University of Oxford, 2021
23. Ziru Zhou, *Demand and Capacity Modelling in Health and Social Care Services*, MSc in Statistical Science, University of Oxford, 2021
24. Samuel Cohen, *Learning Coupled Deep Generative Models*, MSc in Statistical Science, University of Oxford, 2019

25. Veit Wild, *On the Connections between Reproducing Kernel Hilbert Spaces and Gaussian Processes in Large Scale Approximations*, MSc in Statistical Science, University of Oxford, 2019
26. Enis Nazif, *Musical Source Separation using Neural Networks and Non-Negative Matrix Factor-isation*, MSc in Statistical Science, University of Oxford, 2018
27. Yuanheng Tang, *Distribution Regression for Ecological Inference with an Application to Historical Voting Records*, MSc in Statistical Science, University of Oxford, 2018
28. Daniel Thorns, *Distribution Regression for Crop Yield Prediction*, MSc in Statistical Science, University of Oxford, 2018
29. Nicholas Yung, *Expectation Propagation and its Application to Ranking Models*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2018
30. Yun Kang, *Determinantal Point Processes and Their Scalable Sampling Algorithms*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2018
31. Jean-Francois Ton, *Nonstationary Spectral Features for Spatio-Temporal Modelling*, MSc in Applied Statistics, University of Oxford, 2017
32. Danai Antoniou, *Text Mining and Spatial Modelling for Airbnb Pricing Prediction*, MSc in Applied Statistics, University of Oxford, 2017
33. Thomas Uriot, *Predicting Conflict Intensity Fitting Neural Networks on Real-World Video Data*, MSc in Applied Statistics, University of Oxford, 2017
34. Tim Rudner, *Doubly Stochastic Variational Fourier Features for Deep Gaussian Processes*, MSc in Applied Statistics, University of Oxford, 2017
35. Kezia Burke, *Multilevel Analysis of Population in Ireland*, MSc in Applied Statistics, University of Oxford, 2017
36. Jake Stockwin, *Gaussian Processes for Bayesian Optimisation: Principles and Application to a Two-Agent Dose Finding Problem*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2017
37. Nikola Konstantinov, *Kernel Dependence Measures for Unsupervised Learning*, MMath Mathematics & Statistics (Part C / Honours Dissertation), University of Oxford, 2017
38. Gabriel Zucker, *Using Machine Learning to Improve Targeting of Reemployment Programs in the United States*, MSc in Applied Statistics, University of Oxford, 2016
39. Thomas Lewin, *Difficulty and Skill in a Mobile Match-Three Game: A Machine Learning Approach*, MSc in Applied Statistics, University of Oxford, 2016
40. Hiroaki Imai, *Quadrature Rules Based on Determinantal Point Processes*, MSc in Applied Statistics, University of Oxford, 2016
41. Lukas Kobis, *Inference and Learning for Hidden Markov Models: Methodological and Computational Considerations*, MMath Mathematics & Computer Science (Part B Extended Essay), University of Oxford, 2016
42. Qinyi Zhang, *Kernel-Based Association Tests and Applications to Genomic Data*, MSc in Applied Statistics, University of Oxford, 2015
43. Artur Kotlicki, *Fast Kernel Adaptive Metropolis-Hastings Algorithm*, MSc in Applied Statistics, University of Oxford, 2015
44. Rishabh Kabra, *Prediction of Trip Outcomes from Initial Partial Trajectories*, MSc in Applied Statistics, University of Oxford, 2015

Examination of Research Dissertations

1. Kenyon Wei Yaw Ng, *Computational Methodologies for the Post-Bayesian Paradigm*, PhD, Department of Econometrics and Business Statistics, Monash University (external examiner), 2026
2. Haiqi Dong, *Regression-Based Active Learning for Scientific Tasks*, PhD, School of Computing, Australian National University (external examiner), 2026

3. Houston Warren, *Bayesian Methods for Scientific Modeling: Advances in Quadrature, Kernel Learning, and Simulation*, PhD, School of Computer Science, University of Sydney (external examiner), 2025
4. Julien Lenhardt, *Identification of cloud regimes relevant for aerosol-cloud interactions*, PhD, Faculty of Physics and Earth Sciences, Leipzig University (external examiner), 2025
5. Yu-Hsiu Tseng, *Advancements in Variational Bayesian Computation: Theory and Applications in Hybrid and Particle-based Methods*, PhD, School of Computer Science, University of Sydney (external examiner), 2024
6. Emiliano Diaz Salas-Porras, *Towards Causal Discovery for Earth System Sciences*, PhD, School of Engineering, University of Valencia (external examiner), 2023
7. David Widmann, *Reliable Uncertainty Quantification in Statistical Learning*, PhD, Department of Information Technology, Uppsala University (external examiner / opponent), 2023
8. Alexander Camuto, *Understanding Gaussian Noise in Neural Networks*, DPhil, Department of Statistics, University of Oxford (internal examiner), 2022
9. Simone Rossi, *Improving Scalability and Inference in Probabilistic Deep Models*, PhD, Sorbonne University / EURECOM (external examiner), 2022
10. Fredrik Hallgren, *Kernel PCA and the Nyström method*, PhD, Department of Statistical Science, University College London (external examiner), 2021
11. Edward Wagstaff, *Exploiting Prior Knowledge in Machine Learning Model Design*, DPhil, Department of Engineering Science, University of Oxford (internal examiner), 2021
12. Alex Lambert, *Learning Function-Valued Functions in Reproducing Kernel Hilbert Spaces with Integral Losses: Application to Infinite Task Learning*, PhD, Institute Polytechnique de Paris / Telecom Paris (external examiner), 2021

20. Mark McLeod, *Optimizing Bayesian Optimization*, DPhil, Department of Engineering Science, University of Oxford (internal examiner), 2018
21. Tammo Rukat, *Logical Factorisation Machines: Probabilistic Boolean Factor Models for Binary Data*, DPhil, Department of Statistics, University of Oxford (internal examiner), 2018
22. Martin Stražar, *Learning the Kernel by Low-Rank Matrix Approximation*, PhD, Faculty of Computer and Information Science, University of Ljubljana (external examiner), 2018
23. Yves-Laurent Kom Samo, *Advances in Kernel Methods: Towards General-Purpose and Scalable Models*, DPhil, Department of Engineering Science, University of Oxford (internal examiner), 2017
24. Bertrand Nortier, *Second Order Proximal Methods Applied to Elastic Net Penalised Vector Generalised Linear Models*, MSc by Research, Department of Statistics, University of Oxford (internal examiner), 2016

TEACHING

Adelaide University

STAT X403 Causal Inference (4th year)	*2026*
STATS 3006/4106/7059 Mathematical Statistics (3rd year)	*2024–2025*
MATHS 2203 Advanced Mathematical Perspectives II (2nd year)	*2023–2025*
STATS 2107/7107 Statistical Modelling and Inference (2nd year)	*2023*

University of Oxford

Computational Statistics (Part B/3rd year+MSc)	*2021/22*
Statistics and Data Analysis (Prelims/1st year)	*2017/18–2021/22*
Machine Learning (Centre for Doctoral Training)	*2016/17, 2019/20–2021/22*
Foundations of Statistical Inference (Part B/3rd year+MSc)	*2019/20*
Advanced Topics in Statistical Machine Learning (Part C/4th year+MSc)	*2017/18–2018/19*
Statistical Data Mining and Machine Learning (Part C/4th year+MSc)	*2014/15–2016/17*
Tutor (Mansfield College), *Probability, Statistics*	*2015/16–2021/22*
Tutor (University College), *Probability, Statistics, Graph Theory*	*2014/15–2015/16*

University College London

Advanced Topics in Machine Learning: Theory of Kernel Methods (MSc)	*2011/12–2013/14*
Adaptive Modelling of Complex Data: Classification (an introductory graduate course)	*2013/14*

University of Bristol

Graphical Models and Complex Stochastic Systems (Centre for Doctoral Training)	*2010/11*
Tutor, *Linear Algebra and Geometry, Probability I, Statistics I*	*2010/11*
Tutor, *Analysis I, Further Topics in Analysis*	*2009/10*
Demonstrator, *Computing, Software Engineering in C*	*2007/08–2008/09*

University of Sarajevo

Demonstrator, *Mathematical Analysis / Analysis I*	*2005/06*

SELECTED INVITED TALKS

Bayesian Analysis and Modelling Workshop, Monash University	*11/2026*
School of Chemical Engineering Seminar, Adelaide University	*07/2026*
Mathematical Sciences Colloquium, Adelaide University	*05/2026*
CCDS Seminar, Nanyang Technological University, Singapore	*03/2026*
Workshop on Functional Inference and Machine Intelligence, Tokyo	*03/2026*
Bayes on the Beach Conference, Wollongong	*02/2026*
Machine Learning Summer School, Melbourne	*02/2026*
CCDS Seminar, Nanyang Technological University, Singapore	*07/2025*
BayesComp Conference, Singapore (invited session)	*06/2025*
Data 61, CSIRO, Sydney	*05/2025*
ML Research Network Seminar, University of Sydney	*05/2025*
Workshop on Functional Inference and Machine Intelligence, Okinawa	*03/2025*
The International Conference of Thailand Econometrics Society, Chiang Mai	*01/2025*
The KAUST Statistics Workshop, King Abdullah University of Science and Technology	*11/2024*
Gatsby Unit, University College London	*07/2024*
Dept of Computer Science, RPTU Kaiserslautern-Landau	*03/2024*
Nanyang Technological University, Singapore	*03/2024*
Business Analytics Seminar, University of Sydney	*02/2024*
Data 61, CSIRO, Sydney	*02/2024*
Institute of Mathematical Statistics Asia-Pacific Rim Meeting, Melbourne (invited session)	*01/2024*
Australian Institute for Machine Learning, Adelaide	*06/2023*
Department of Information Technology, Uppsala University	*06/2023*
NIASRA, University of Wollongong	*03/2023*
Workshop on Functional Inference and Machine Intelligence, Tokyo	*03/2023*
Adelaide Data Science Centre, University of Adelaide	*03/2023*

Mathematical Sciences Colloquium, University of Adelaide	*11/2022*
CSIRO ML & AI Future Science Platform Conference, Sydney (keynote)	*05/2022*
KTH Royal Institute of Technology, Stockholm	*03/2022*
Data Science Seminar, London School of Economics	*03/2022*
Secondmind, Cambridge	*12/2021*
ELLIS Workshop on Machine Learning in Earth and Climate Sciences, Oberwolfach	*03/2020*
Workshop on Functional Inference and Machine Intelligence, Sophia Antipolis	*02/2020*
Northern Lights Deep Learning Workshop (NLDL), Tromsø (keynote)	*01/2020*
Statistics Seminar, School of Mathematics, Cardiff University	*01/2020*
NeurIPS Meetup, Oxford (keynote)	*12/2019*
Royal Statistical Society Discussion Meeting (seconding the vote of thanks)	*10/2019*
European Meeting of Statisticians, Palermo (invited session)	*07/2019*
Gatsby Unit 21st Birthday Symposium, London	*07/2019*
Machine Learning Meetup, London	*06/2019*
Google DeepMind, London	*06/2019*
EURECOM, Sophia Antipolis	*04/2019*
Workshop on Functional Inference and Machine Intelligence, Tokyo	*03/2019*
KERMES - Advances in Kernel Methods for Structured Data, UPM Madrid	*02/2019*
CSML Seminar, University College London	*01/2019*
Machine Learning Tutorial, Dept of Computing, Imperial College London	*11/2018*
Advances in Kernel Methods Workshop, Sheffield	*09/2018*
Intelligent Systems Laboratory Seminar, University of Bristol	*06/2018*
The Institute of Science and Technology Austria	*06/2018*
SFB Data Assimilation Colloquium, Universität Potsdam	*05/2018*
Statistical Scalability Programme, Isaac Newton Institute, University of Cambridge	*05/2018*
Theory and Algorithms in Data Science Seminar, Alan Turing Institute	*10/2017*
School of Mathematics and Statistics, University of Sheffield	*10/2017*
Mathematical, Physical and Life Sciences Division Summer Reception, Oxford	*06/2017*
Max Planck Institute for Intelligent Systems, Tübingen	*05/2017*
Regularization Methods for Machine Learning Workshop, Oslo	*05/2017*
OxWaSP-Amazon Workshop, Amazon Development Centre, Berlin	*03/2017*
Statistical Learning Workshop, Lancaster	*03/2017*
Dagstuhl Seminar 16481, Leibniz-Zentrum für Informatik, Schloss Dagstuhl	*12/2016*
Royal Statistical Society Conference, Manchester (invited session)	*09/2016*
The Institute of Statistical Mathematics, Tokyo	*03/2016*
Dept of Statistics, University of Leeds	*11/2015*
OxWaSP Symposium, Dept of Statistics, University of Warwick	*10/2015*
Dept of Power, Electronics and Communication Engineering, University of Novi Sad	*06/2015*
Dagstuhl Seminar 15152, Leibniz-Zentrum für Informatik, Schloss Dagstuhl	*04/2015*
Dept of Statistics, London School of Economics	*02/2015*
UCL Workshop on the Theory of Big Data, London	*01/2015*
Machine Learning Group, Technische Universität Berlin	*07/2014*
The Shogun Machine Learning Toolbox Workshop, c-base, Berlin	*07/2014*
Workshop on Kernel Methods for Big Data, Université Lille	*03/2014*
Dept of Statistical Science, University College London	*11/2012*
CSML Seminar, University College London	*10/2012*
Signal Processing and Communications Laboratory, University of Cambridge	*02/2012*
International Conference of the ERCIM WG on Computing & Statistics (invited session)	*12/2011*
Dept of Electrical and Electronic Engineering, Imperial College London	*07/2011*
Hausdorff Center for Mathematics, University of Bonn	*02/2011*
Gatsby Unit, University College London	*02/2011*
Dept of Statistics, University of Oxford	*12/2010*
Institute for Statistical Science, University of Bristol	*02/2010*
International Mobile Multimedia Communications Conference (invited session)	*09/2009*
Toshiba Research Europe Telecommunications Research Laboratory, Bristol	*08/2009*
Centre for Communications Research, University of Bristol	*11/2008*
